Life overcome odors and heat,
with easy cooling and deodorize.

Alcohol
– free

Deodorizer with cooling for clothing items

DEO DORAMA

Cool

Lasting cool by helping of capsule.
Cooling by menthol & deodorant by eucalyptus essential oil.

How to use DEO DORAMA Cool

01

Spray on clothes before wearing!

e.g.) T-Shirts

02

By moving body and rubbed the sprayed area, the capsules are broken down, providing deodorizing effect.

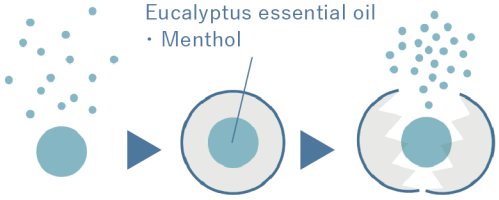
e.g.) Going outside

03

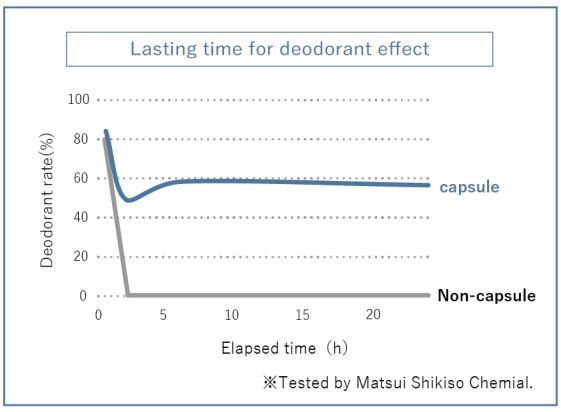
As the effect is achieved every time the capsule breaks, the cool and deodorizing effect lasts even if you do not spray it every day! You can get a life free from heat and odors.

The feature of DEO DORAMA Cool

Theory



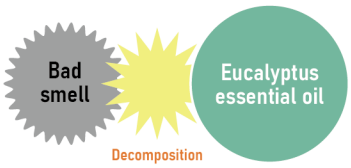
Encapsulated eucalyptus essential oil makes decomposition and deodorizes. Additionally, menthol capsules are included to add a cooling effect. The capsules prevent the contents from evaporating and deteriorating, allowing you to feel the effects for a long period of time.



Cooling and deodorizing effect

Menthol capsules with a cooling effect, eucalyptus essential oil capsules with a high deodorizing effect, and persimmon tannin are combined.

The 1.8-cineole contained in eucalyptus essential oil breaks down and neutralizes odorous components.



Alcohol-free

Even those who do not like alcohol-based deodorizing sprays for fabric products can use it at one's ease.

【Uses】 shirts, inner, work cloths, hats, shoes, socks, towel, handkerchief, car seats, bedding
【Effective】 sweat odor, aging odor, foot odor, toilet odor, body odor
